PROFILE

Versatile and detail-oriented software developer with 2 years of hands-on experience in both frontend and fullstack development. Proficient in building modern, responsive web applications using React, Next.js, and Angular, with additional experience in backend technologies like Laravel, Node.js, and MySQL. Passionate about performance, clean code, and transforming designs into smooth user experiences. Eager to contribute to creative teams in the web and gaming industries.

WORK EXPERIENCE

Milapasa Consulting Inc.

Web Developer | 01 July, 2023 - Present

- Develop and maintain web applications using Angular and Tailwind CSS
- Design, build, and manage WordPress websites
